PROFILE

Detail-oriented and motivated Information Technology student at Polytechnic University of the Philippines seeking an OJT position. Proficient in web development fundamentals, database management, and technical troubleshooting. Eager to apply academic knowledge to real-world projects and contribute to team goals in a professional IT environment.

ACADEMIC PROJECTS

- **Responsive Personal Branding and Portfolio Website**
Front-end Developer / UI Designer
 - Created a fully responsive website using Bootstrap and CSS Flexbox, ensuring compatibility across mobile, tablet, and desktop devices.
 - Integrated interactive elements using JavaScript to enhance user engagement.
 - Utilized Git/GitHub for version control and project documentation.
- **Online Inventory and Sales Management System**
Backend Developer
 - Developed a web-based application using HTML5, CSS3, and JavaScript for the front-end to ensure a user-friendly interface.
 - Designed and managed a relational database using MySQL/SQL, implementing CRUD (Create, Read, Update, Delete) functionalities.
- **Student Information Database System**
Backend Developer
 - Performed regular database troubleshooting and maintenance to ensure 100% data integrity and availability.
 - Generated monthly reports and data visualizations using Microsoft Excel and SQL queries.
